**WSSFN Journal** (Click here to access)

'Stereotactic and Functional Neurosurgery' provides a single source for the reader to keep abreast of developments in the most rapidly advancing subspecialty within neurosurgery.

Issues feature advances in the use of deep brain stimulation, imaging-guided techniques in stereotactic biopsy and craniotomy, stereotactic radiosurgery, and stereotactically implanted and guided radiotherapeutics and biologicals in the treatment of various diseases of the brain.

**LETTER FROM THE EDITOR**

Dear friends and members of the WSSFN,  
I would like to extend my gratitude for your support and dedication to the WSSFN. The WSSFN is a unique organization that has been instrumental in the advancement of stereotactic and functional neurosurgery. It is my honor to lead this organization and to work with you to further our mission. I look forward to a successful year ahead and to the many challenges we will face together. Thank you for your continued support and for making the WSSFN what it is today. Sincerely,  
Dr. [Name]

WSSFN is a non-profit organization that is dedicated to the advancement of stereotactic and functional neurosurgery. We are committed to providing the highest quality of care to our patients and to promoting research and education in this field. We are proud to be part of a global community of professionals who are dedicated to the same goal: to improve the lives of our patients. We look forward to working with you to achieve our common goals. Thank you for your support and for making the WSSFN what it is today. Sincerely,  
Dr. [Name]
